DETAILED ACTION

Allowable Subject Matter

1. Claims 1-11 are allowed.
2. The following is an examiner's statement of reasons for allowance:

A hand-held pupilometer for measuring pupillary response comprising microprocessor-based control means located in the housing and operably connected to the optical-electronic means for controlling the operation of the optical-electronic means, receiving and processing the signal and storing pupillary response data generated therefrom as claimed is not taught nor suggested by the prior art of record. Further, the method for measuring pupillary response of a test subject's eye to a light stimulus comprising, providing a binocular-type housing with two laterally spaced eyepiece locations and flipping the pupilometer 180 degrees such that the other pupil is aligned and measuring the response of the other pupil as claimed is not taught nor suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. ***Conclusion***

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Carter '506 discloses a table-top device capable of determining pupil response to a light source.

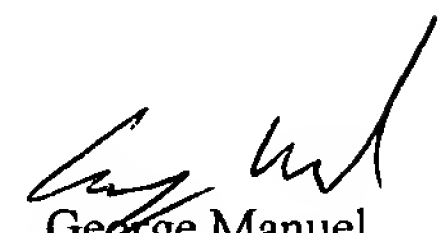

Gardner et al '691 discloses a pupillary response device comprising a microprocessor
